¹Class is Large Utilities based on Ford segmentation. ²Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ⁴Lane-Keeping System does not control steering. ⁵Always wear your safety belt and secure children in the rear seat. ⁶Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.nhtsa.gov). ⁷Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. ⁸Requires phone with active data service and compatible software. SYNC 3 does not control 3rd-party products while in use. 3rd parties are solely responsible for their respective functionality. ⁹FordPass Connect includes complimentary 1-year subscription for remote features, excluding Wi-Fi hotspot, and starts with vehicle sale date (after which, fees apply). Subscription is subject to compatible 4G LTE network availability. Certain restrictions, 3rd-party terms, or message and data rates may apply. Evolving technology/cellular networks may affect future functionality. Wi-Fi hotspot includes complimentary wireless data trial that begins upon AT&T activation and expires at the end of 3 months or when 3GB of data is used, whichever comes first, but cannot extend beyond the complimentary subscription period for remote features. To activate, go to www.att.com/ford. ¹⁰Available via download and compatible with select smartphone platforms. Learn more at fordpass.com. Message and data rates may apply. ¹¹Including rear seat well. ¹²When properly equipped. ¹³With standard powertrain for trim level configuration shown in chart.
