Get seamless, secure access to vehicle data through our open, cloud-based platform

Our open platform provides easy access to clean, secure, manufacturer-grade vehicle data that's engineered to work with the tools and people you know and trust. This applies whether you need vehicle data integrated with your proprietary software or accessible through your existing partner network.

Why Ford Data Services?

Vehicle Data

FORD

API

API

Partner Integration

Our systems are Ford engineered: integrated and open with our know-how and reliability

- Helps you and your partners manage the flow of data in a secure and robust way, allowing your business operations to run seamlessly

Manufacturer-grade signal accuracy and access: always evolving

- Gives you access to the newest updates and vehicle signals as soon as they become available – delivering insights as quickly as your business needs them

Integrated modem technology

- Enables us to engineer the vehicle, the data signals and the modem in tandem to maximize the depth and breadth of data we can use to develop new solutions for you

Security Management

- Our expertise and robust security program provides our customers with industry leading data protection

Easy API integration for developers

- Gives developers secure and easy access to our APIs in order to leverage processed vehicle data

Partner integration is seamless

- Connecting with our open access approach makes data integration with your existing partnerships seamless and easy – helping you use third-party services you need for your business.
- Our platform is designed for secure, open integration with any third-party service tool. We are working to expand our network. Contact us with questions.

About Ford Commercial Solutions

Ford Commercial Solutions gives businesses the focused and relevant fleet management and telematics tools they need to optimize, adapt and grow. Built on the strength of our commercial vehicle and fleet business experience, we blend Ford's engineering expertise and deep vehicle knowledge with a hands-on understanding of real-world challenges to give our customers a partner they can depend on.

We deliver purpose-built solutions for different kinds of fleets, helping them optimize resources so they can commit more time and attention to their business priorities. Our telematics-based fleet solutions are built on a platform that is integrated with the Ford ecosystem. It is designed to evolve as our customers do, flexing to meet their ever-changing needs.
