1) Class is Full-sized Vans based on Ford Segmentation.
2) Assembled in the USA with domestic and foreign parts.
3) Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
4) Always wear your safety belt and secure children in the rear seat, if equipped, and follow airbag warning label instructions.
5) Lane-keeping alert with driver alert does not control steering. The driver should always be in control and responsible for safe operation of the vehicle.
